

Name: Chris Laidlaw

Class of works: I am writing in support of Class #1 (Copy-Protected CDs):
Sound recordings released on compact disc ("CDs") that are protected by
technological protection measures that malfunction so as to prevent access on
certain playback devices.

Summary:

Disc name: Diablo 2 Expansion

It was not labeled as copy protected, but the CD is required to run the
program, was not able to be played in the CDRW/DVD drive of my Dell laptop--
because of this, I was not able to run the program until I downloaded separate
programs that were very hard to find. Furthermore, due to the proliferation of
Dell brand laptops, I believe this problem has affected many other people as
well as me.
